## **NATIONAL FOUNDATION FOR THE ARTS AND THE HUMANITIES**

### **Notice of Proposed Information Collection Requests: Let's Move Museums, Let's Move Gardens**

**AGENCY:** Institute of Museum and Library Services, National Foundation for the Arts and the Humanities.

**ACTION:** Notice, request for comments, collection of information.

**SUMMARY:** The Institute of Museum and Library Services (IMLS), as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act (44 U.S.C. Chapter 35). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. By this notice, IMLS is soliciting comments concerning a survey to gather information to identify museums that are currently or have plans to provide interactive experiences (exhibitions); afterschool, summer and other targeted programs, and food service operations that help fight childhood obesity. The data collection will help to identify best practices and collect information about the capacity of museums to reach the public with important public health messages.

A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

**DATES:** Written comments must be submitted to the office listed in the **ADDRESSES** section below on or before February 5, 2015.

IMLS is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques, or other forms of information technology, e.g., permitting electronic submissions of responses.
